Select "Specialty Sections"

**Enjoy the full benefit of your SOT membership—
join one or more Specialty Sections today!**

The Society of Toxicology has established 27 Specialty Sections that provide a forum for networking with peers who share an interest in your area of toxicology. These sections may propose sessions for the annual meeting, exchange information *via* newsletters, present awards, and participate in other scientific activities.

Connect

At each of the Specialty Section annual receptions, you are able to see good friends, re-establish ties with colleagues with whom you have lost touch, and introduce yourself to scientists with whom you would like to collaborate.

Most of the Specialty Section receptions include a business meeting at which the section's planning committees report. Symposia and Continuing Education proposal topics for the following year's annual meeting are discussed, student award winners are introduced, and several section meetings feature an invited speaker.

Call today!

The price of a Specialty Section membership is \$15. Students and postdoctoral fellows receive the first Specialty Section at no cost. If you have not joined, there is still time. To add a Specialty Section on-line, go to the SOT Membership Renewal On-line option. You will need your login and password to access this portion of SOT's Web site.
