## THE BURROUGHS WELLCOME TOXICOLOGY SCHOLAR AWARD

Under the administration of the Society of Toxicology, The Burroughs Wellcome Fund offers a five-year Toxicology Scholar Award of \$300,000 to an individual working in the field of toxicology in a recognized U.S. school in the life sciences. The primary aim of the program is to support the career development of toxicologists and to stimulate teaching, training and research in academic institutions that have made a commitment to toxicology as a basic science.

The program is designed to help provide an increased number of toxicologists well trained in understanding the interactions of chemicals with biological systems. Selection is made on the basis of the demonstrated ability and potential of the candidate, the strength of the commitment for program expansion, the quality of expansion plans, and relative importance of the Award to the success of the proposed program expansion.
