Mission
To educate, lead, and serve professionals in toxicology and related disciplines by promoting the exchange of information and perspectives on applied toxicology and safety assessment.

Overview
The American College of Toxicology (ACT) is a professional organization of about 1,000 toxicologists who work primarily in pharmaceutical and biotech companies, contract research organizations, regulatory agencies, or as consultants. ACT serves its members by promoting the exchange of information and perspectives on applied toxicology and safety assessment through year-round educational opportunities, an Annual Meeting, and its peer-reviewed scientific journal, International Journal of Toxicology.

ACT Membership
ACT enhances your professional development in applied toxicology.
- Fundamental and advanced courses and webinars
- Regular meetings between Master Mentors and Mentees
- Leadership opportunities
- Free student membership
- Peer-to-peer connections
- Access to ACT’s International Journal of Toxicology

ACT Mentorship Program
Provides toxicologists with a pathway for interaction with each other and with experienced leaders for guidance in professional development.

ACT for Young Professional and Student Members
ACT Membership for Young Professionals and Students:
- Mentorship program
- Regular interactions with experienced toxicologists
- Free student membership
- Opportunities for professional development

ACT Endowment
ACT’s endowed and institutional assets will be designated as the ACT Awards Fund to support educational awards and fellowships such as:
- North American Travel Grants
- Student Fund Award
- North American Graduate Fellowships

ACT Awards
ACT recognizes outstanding toxicologists at the ACT Annual Meeting.
- Outstanding Scientist Award in Toxicology
- Distinguished Lecturer Award
- Distinguished Women’s Leadership in Toxicology Award
- Young Scientist Award
- Research Grant Awards
- Educational Webinars

ACT Contact Information
Nancy Rollman, Executive Director
11190 Sunrise Valley Drive, Suite 300 • Reston, Virginia 20191

International Journal of Toxicology
Manuscript Submissions:
http://mc.manuscriptcentral.com/uito

IJT Publishes:
- Regularly-reviewed papers on current topics
- Invited reviews on contemporary topics
- Articles based on ACT Annual Meeting sessions

To Educate, Lead, and Serve
Educational Webinars
ACT Signature Webinars
ACT hosts quarterly webinars on current topics in toxicology, including primarily drug and chemical safety assessments. Participation requires registration and webinar codes are free.

ACT Podcasts
ACT’s podcasts, ToxChats®, report on cutting-edge news in toxicology research from around the globe, featuring interviews with experts, and reviews of current advances.

Annual Meeting Highlights
The Annual Meeting is the heart of the American College of Toxicology. This November gathering brings together a community of toxicologists at small venues conducive to idea exchange, networking, and continuing education. Programs are member-driven, Pharma-focused, and organized to maximize learning opportunities.

- Engaging plenary speakers and timely topics
- Wide variety of symposia addressing broad areas of interest
- A full day of Continuing Education courses
- Awards lunchcheon, poster session, and exhibits
- Receptions, social events, informal networking opportunities

ACT’s 39th Annual Meeting Venue
November 4-7, 2018
Palm Beach Convention Center
West Palm Beach, Florida
Registration Open at www.actox.org

Future ACT Annual Meetings
- November 17–20, 2019:
  40th Annual Meeting
  JW Marriott Desert Ridge
  Phoenix, Arizona

- November 15–18, 2020:
  41st Annual Meeting
  JW Marriott Austin
  Austin, Texas

ACT 2018 Educational Courses
- Toxicology for Pharmaceutical and Regulatory Scientists
  April 23–27, 2018
  Gaithersburg, Maryland, United States

- Pathology for Nonpathologists
  Co-Hosted with the Society of Toxicologic Pathology
  May 14–16, 2018
  Gaithersburg, Maryland, United States

- Practical Application of Toxicology in Drug Development
  Co-Hosted with the British Toxicology Society
  July 23–27, 2018
  Cambridge, United Kingdom

- Advanced Comprehensive Toxicology
  August 6–10, 2018
  Gaithersburg, Maryland, United States
