Food Safety Specialty Section
(FS³)

FS³ Objectives

1. Serve as a focal point for the interaction of toxicologists and other professionals interested in food safety.
2. Promote the application of toxicologic principles and experimental methods to food safety evaluation.
3. Conduct programs, including educational activities which emphasize current developments and issues in food safety.
4. Stimulate interest in food safety as it relates to the science of toxicology.
5. Serve as a resource for the public (consumers, educators, regulators, and lawmakers) to access scientific developments and information in the area of food safety.

Why join FS³?

1. Build important connections with other students and professionals who could be future peers and collaborators in food safety and toxicology.
2. Be recognized for your research in food safety with scholarships and awards provided yearly.
3. Provides networking opportunities allowing interaction with professionals in academia, consulting, government & industry.
4. Learn about career opportunities in the area of food safety.
