For individuals who are not members of SOT, participation in SOT's Building a Better Epithelium: Breaking the Barrier to the Next Generation of Toxicity Testing is available only to bona fide individuals who are engaged in or promote the field of toxicology or biotechnology research and support the growth and development of the toxicology field. For organizations, participation in the SOT's Building a Better Epithelium is available only to bona fide organizations with public policy positions and business practices that are generally consistent with SOT's mission, goals, reputation, and its policies and principles as determined by SOT. SOT reserves the right to review applications for participation at SOT's Building a Better Epithelium to confirm that the applicant meets these criteria and may, at SOT's sole discretion, reject a registration by any individual or business or withdraw registration privileges at any time if any individual or organization is found to be inconsistent with SOT's principles and interests.
