Reflecting on the Engagement of SOT Members

By: Patricia E. Ganey, PhD

The new SOT president is grateful for the enthusiasm of SOT volunteers, remembers the 56th Annual Meeting and ToxExpo, and shares the SOT Council's ongoing plans to increase the impact and reach of toxicology.

Opioid Abuse and Overdose: How Toxicologists Are Addressing This Public Health Crisis

By: Abimbola Farinde, PharmD, PhD

With increasing reports of and concerns about opioid abuse, there are actions toxicologists can take to help prevent and treat the problem.

Cross-Disciplinary Collaboration Key to Increasing Toxicology’s Impact—Communicating in Toxicology (Part 1 of 2)

By: David Faulkner, MPH

Effective toxicology often requires the input of non-toxicologists. This article examines how personal collaborations that cross scientific disciplines are formed.
Exposing Promising, Diverse Undergraduates to Toxicology: Tales of a Graduate Peer Mentor

By: Vivek Lawana, BS, MS

Graduate Peer Mentor Vivek Lawana reveals how the SOT Undergraduate Diversity Program is working to increase diversity and inclusion in toxicology.

MRC Toxicology Unit: 70 Years of Advancing Basic Toxicology Science Alongside Emerging Concepts

By: Andy G. Smith, PhD, DSc; George Skaika; Melissa Lennartz-Walker, DPhil; and Anne E. Willis, OBE, PhD, for the MRC

Long-time SOT Partner, the Toxicology Unit of the Medical Research Council is focused on delivering field-changing mechanistic insights into toxicology and disease.
