

# Korean Toxicologists Association in America SIG

## Mission

- To promote the recruitment of toxicologists with Korean background and/or ancestry, and of toxicologists from any other cultural or ethnic background who share a common interest in toxicological research issues germane to the Korean community.
- To develop, propose, and conduct programs and educational activities that promote career development opportunities for Korean Toxicologists.
- To promote and recognize the accomplishments of Korean Toxicologists.
- To promote collaboration in toxicological research and relevant issues between the USA and Korea.

2005—New Orleans
