PEPSICO SCIENTIFIC AFFAIRS SUMMER INTERN
R&D Global Functions Specialist (180636BR)

ABOUT PEPsiCO:

Nationwide Opportunities- Please Read:
Just because this role looks like it's located in Purchase, NY doesn't mean it is! At PepsiCo we place R&D Interns/ Full-Time hires primarily in the TWO headquarter locations: Chicago/Barrington, IL; Purchase NY. Location preferences will be discussed in the interview process.

We are PepsiCo:
PepsiCo is a global food and beverage leader operating in more than 200 countries and territories with a product portfolio that includes 22 world-famous, billion-dollar brands. From Gatorade to Quaker, LIFEWTR to Lay’s, we make hundreds of enjoyable foods and beverages that are loved throughout the world.

Guiding PepsiCo is our vision to be the global leader in convenient foods and beverages by Winning with Purpose. “Winning with Purpose” reflects our ambition to win sustainably in the marketplace and embed purpose into all aspects of the business.

Our employees drive our culture. No two days are the same; we’re dynamic and full of passionate teams embracing new ideas through our collaborative spirit. At PepsiCo, what makes you unique, makes us better!

As Scientific affairs we:
Protect people and brands, deliver scientific foresight and enable innovation in key markets. We support innovation and development in global food and beverage business with ingredient defense strategies for market entry of new ingredients. We drive global harmonization through engagement with health authorities and mitigate risks from product warning labels. Most importantly we enable consumer and policy maker trust with rigorous scientific studies and reviews.

Scientific affairs intern accountabilities and measurements:
• Plan and coordinate individual activities that contribute to project results.
• Coordinate and work well with a team to meet timely objectives.
• Presentation of project results and findings upon completion of internship.

Knowledge and Experience:
• Knowledge of basic principles of toxicology and risk assessment.
• Excellent communications skills (both written / verbal) to request, provide, share and explain information.
• Capable of working on individual or team settings.
• Seeking good scientists with excellent skills in critical analysis, and review of scientific studies and literature.

Goal of Program:
Opportunity to gain cross-functional knowledge of a World Class Beverage/Food company. Strengthen skills in the risk assessment and translation of toxicology to products and communications.

Location(s):
Purchase NY or Chicago IL

Degree:
Master’s, Doctoral (Ph.D.)
