## Online Planner Tips and Tricks

The screenshot shows the Online Planner interface with a sidebar on the left containing links for Agenda, Schedule, Abstracts, Presenters, and EventPilot. The main area displays a calendar for March 14-19, with March 17 highlighted in blue. Below the calendar is a list of events:

- Cellular Recovery and Resilience: A New Perspective on Toxicity Testing (8:00AM-10:45AM Mar 17)
- Cyanide as a Chemical Threat: Finding Better Antidotes (8:00AM-10:45AM Mar 17)
- Electronic Cigarettes and Cardiovascular Toxicity: New Friend or Old Foe? (8:00AM-10:45AM Mar 17)
- Environmental Exposure and Health Effects of Organophosphate Esters (8:00AM-10:45AM Mar 17)
- Quantitative and Translational Systems Toxicology: Improving Drug Safety from Preclinical to Clinical Outcomes (8:00AM-10:45AM Mar 17)

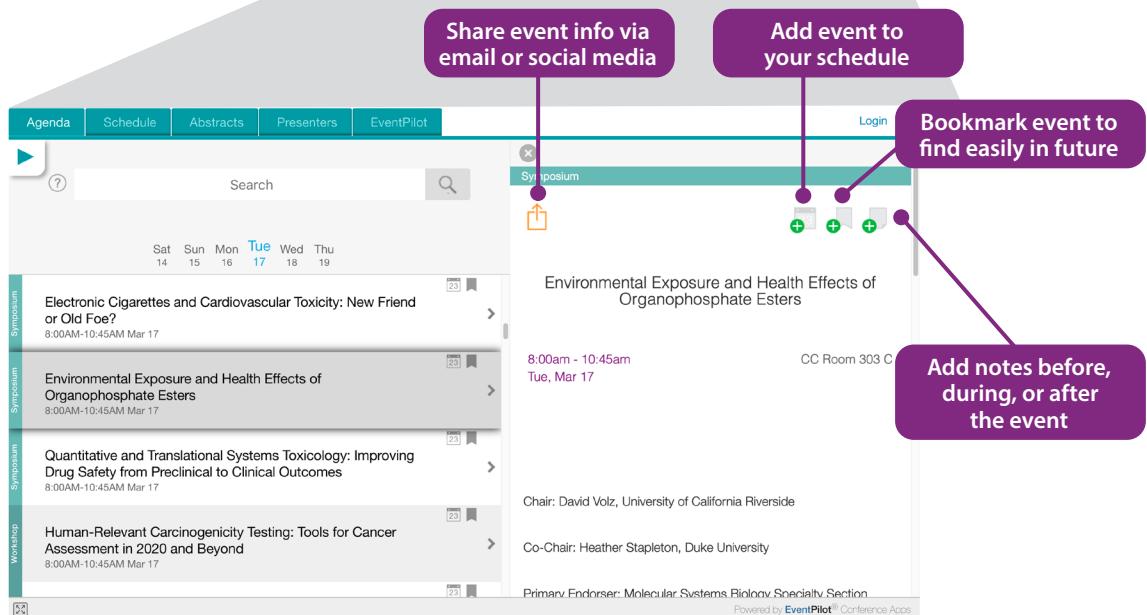

Each event entry includes a small icon, a '23' badge, and a 'View Details' button. The interface is powered by EventPilot® Conference Apps.

The screenshot shows the Online Planner interface with a sidebar on the left containing links for Agenda, Schedule, Abstracts, Presenters, and EventPilot. The main area displays a calendar for March 14-19, with March 17 highlighted in blue. Below the calendar is a list of events:

- Electronic Cigarettes and Cardiovascular Toxicity: New Friend or Old Foe? (8:00AM-10:45AM Mar 17)
- Environmental Exposure and Health Effects of Organophosphate Esters (8:00AM-10:45AM Mar 17)
- Quantitative and Translational Systems Toxicology: Improving Drug Safety from Preclinical to Clinical Outcomes (8:00AM-10:45AM Mar 17)
- Human-Relevant Carcinogenicity Testing: Tools for Cancer Assessment in 2020 and Beyond (8:00AM-10:45AM Mar 17)

Each event entry includes a small icon, a '23' badge, and a 'View Details' button. The 'Environmental Exposure and Health Effects of Organophosphate Esters' event is expanded, showing details like '8:00am - 10:45am Tue, Mar 17' and 'CC Room 303 C'. Below the event details, it lists 'Chair: David Volz, University of California Riverside' and 'Co-Chair: Heather Stapleton, Duke University'. The interface is powered by EventPilot® Conference Apps.
