Membership

Membership is a diverse community of applied toxicologists representing the pharmaceutical and biotech industries, contract research organizations, regulatory agencies, academia, and consulting firms. Student membership is free.

Overview

The ACT is a global community of industry, government, and academic professionals renowned for its ability to eduate, lead, and serve rontisologists related to applied toxicology in a welcoming and collegial environment.

Mentorship Program

Mentorship Program advances your career through connections with fellow ACT members. Available for all career stages.

International Journal of Toxicology

International Journal of Toxicology, the ACT official journal, features relevant topics including toxicity safety assessments, mechanisms of toxicity, biomarkers, and risk assessment.

43rd Annual Meeting

November 13–16, 2022 Gaylord Rockies Denver, Colorado

Registration is open at www.actox.org.

Annual Meeting Highlights

The ACT Annual Meeting brings together a community of toxicologists at small venues conducive to idea exchange, and continuing education. Programs are pharma-focused and organized to maximize learning opportunities.

- Engaging plenary speakers and timely topics
- Wide variety of Symposia and Workshops addressing broad areas of interest
- A full day of Continuing Education courses
- Awards Ceremony and exhibits
- Receptions, social events, and informal networking opportunities

Future Annual Meetings

44th Annual Meeting November 12–15, 2023 Rosen Shingle Creek Orlando, Florida

45th Annual Meeting November 17–20, 2024 JW Marriott Austin Austin, Texas

46th Annual Meeting November 16–19, 2025 JW Marriott Desert Ridge Phoenix, Arizona

2022 Educational Courses

Toxicology for Pharmaceutical and Regulatory Scientists
March 7–11, 2022 Virtual Course

Pathology for Nonpathologists
Co-hosted with the Society of Toxicologic Pathology
May 16–18, 2022 Gaithersburg, Maryland

 Practical Application of Toxicology
in Drug Development
Co-hosted with the British Toxicology Society and the Cambridge Academy of Therapeutics Sciences Virtual Course

 Advanced Comprehensive Toxicology
August 1–5, 2022 Gaithersburg, Maryland

Educational Webinars & Seminars

Signature Webinars:
Quarterly webinars on current topics in toxicology, including primarily drug and chemical safety assessments. Participation requires registration, and webinars are free.

eLearning Seminar:
Basic Topics in Toxicology
Modules provide a strong foundation for an in-depth understanding of the basic concepts and principles of toxicology, pharmacology, drug metabolism, and pharmacokinetics.

eLearning Seminar:
Gene Therapy: Nonclinical and Regulatory Strategies
Modules provide insight into gene therapy development for practicing toxicology professionals.

eLearning Seminar:
Special Topics in Toxicology
Modules feature recognized experts in the fields of inhalation toxicology, dermal toxicology, neurotoxicology, juvenile animal studies, in silico computational toxicology, and threshold/benchmark dose setting.

Podcasts

ACT podcasts, ToxChats®, report on cutting-edge news in toxicological research from around the globe, featuring interviews with experts and reviews of current advances.
