

# PARTNERSHIP OF SCIENTIFIC SOCIETIES WITH THE GOAL OF IMPROVING PUBLIC HEALTH THROUGH A COLLABORATIVE INTERDISCIPLINARY APPROACH

[www.toxicology.org/slc](http://www.toxicology.org/slc)

## SLC Vision and Focus

SLC is a coalition of scientific, biomedical, and health-based societies working together to identify and promote topics of cross-cutting interest through conferences, webinars, and professional meetings. SLC harnesses the collective expertise of large and small organizations to improve human and environmental health and well-being.

## Representative SLC Activities

- Conferences, Symposia, and Continuing Education Courses
  - FutureTox series of conferences on new technologies
  - Symposia on topics such as Predictive Toxicology, Big Data, Stem Cell Therapies, Cannabis, and Risk Assessment
  - CE Courses on Science Communication and Risk Management for Pregnant Workers
- Webinars and Publications on Emerging Interdisciplinary Topics
  - Clinical and Ethical Implications of Gene Therapies
  - Social Media Tools for Scientists, Dermatotoxicity, and Big Data
  - Online publicly available recordings of webinars

## SLC Society Member Benefits

- Expanded Outreach and Visibility through Global Partnerships
- Access to Content Available Only to SLC Member Societies
- Networking Opportunities across Diverse Scientific Societies
- Enhanced Leadership and Volunteer Opportunities
- Inclusive Leadership on Key Elements to Advance Scientific Initiatives
- Identify, Foster, and Promote Awareness of Cutting-Edge Interdisciplinary Scientific Advances

- American Academy of Clinical Toxicology
- American College of Toxicology
- American Industrial Hygiene Association
- British Occupational Hygiene Society
- Developmental Neurotoxicology Society
- Environmental Mutagenesis and Genomics Society
- EUROTOX
- International Union of Toxicology
- North American 3Rs Collaborative
- Safety Pharmacology Society
- Society for Birth Defects Research and Prevention
- Society of Toxicology
- The Toxicology Forum
