

## Spring Symposium

**Date: April 23, 2015**  
**Venue: SSF Conference Center**

### Preclinical Drug Development, Biotherapeutics, and Biomarkers of Toxicity

- Rebecca Abergel, PhD, Chair of Radioactive Drug Research Committee, Lawrence Berkeley National Laboratory  
Title: *Development of New Therapeutics for Radionuclide Decorporations: From Discovery to IND*
- Tracy Goldstein, PhD, Associate Director and Professor, UC Davis, One Health Institute  
Title: *Using a One Health Approach to Reduce Pandemic Risk and Promote Global Health: PREDICT, A Project of USAID's Emerging Threats Program*
- Serguei Liachenko, MD, PhD (FDA)  
Title: *Preclinical Development of Neurotoxicity Biomarkers Using MRI*
- Jon Mirsalis, PhD, DABT, Managing Director of Biosciences, SRI International  
Title: *Biomarkers of Cardiac Toxicity*
- Gene Garrard Olinger, Jr., PhD, MBA, Principal Advisor Science, MRIGlobal Inc.  
Title: *Development of Passive Immunity for Ebola Virus Infections Through Convergence of Science & Technology: Mice, Primates and Plants*
- Philip Sager, MD, FACC, FAHA, FHRS, Pharmaceutical and Device Consultant/Biotechnology Executive Consulting Professor  
Title: *TBD*

*Note: Speakers are confirmed. Titles are tentative at this time.*
