

2016 PANWAT Annual Conference

New Technologies in Toxicology and Environmental Health

**September 29-30th
LaSells Stewart Center
Oregon State University, Corvallis, OR**

We invite you to join your colleagues to discuss the development of exciting new technologies and approaches in toxicology and environmental health research.

Speakers:

Dr. Kai Wang, Institute for Systems Biology, Keynote Speaker

Recent Advances and Applications on Sequencing Based Circulating MicroRNA Analysis

Dr. Ed Kelly, University of Washington

Organs on Chips & Reducing the Need for Animal Studies

Dr. Kristen Mitchell, Boise State University

Aryl Hydrocarbon Receptor in Liver Fibrosis and Regeneration

Dr. Stefan Linehan, ImaBiotech

Quantitative Mass Spectrometry Imaging in Evaluation of Drug Efficacy and Toxicity

Important Deadlines:

Housing deadline: September 8th

Abstract deadline: September 14th

Early registration deadline: September 23rd
