

**REGIONAL TOXICOLOGY CONFERENCE**  
 September 17-18, 2009 Seattle, WA

## **Pursuing Mechanism in Drug Safety Assessment**

Understanding the expected target mechanisms and potential toxicological mechanisms, including metabolism pathways, can strongly impact on the safety assessment of novel pharmaceutical agents. This year’s Symposium Session will focus on the use of mechanistic information to guide drug safety testing, from research and development through the clinical and post-market experience. New strategies for integrating mechanism into study design will be presented.

### *Preliminary Announcement and Call for Abstracts*

#### PANWAT 2009 CONFERENCE SCHEDULE:

<b>Thursday</b> <b>September 17</b>		<b>Friday</b> <b>September 18</b>
5:30 pm – 8:30 pm Reception and Poster Presentation	<b>&amp;</b>	8 am – 5:30 pm Symposium Session (am) Platform Session (pm)

**ABSTRACT SUBMISSION DEADLINE: AUGUST 28**

### Special Continuing Education Course: September 17

“Primer in Pathology: Interpreting and Integrating Nonclinical Study Results”, a full-day course will be offered in conjunction with the 2009 PANWAT Conference, from 8:30 am to 5:00 pm on 9/17. Enrollment will be free with registration.

*More Details and Registration Forms are Available Online*
