

2014 Annual Meeting – September 18-19

Predictive Toxicology

An important role of toxicology is forecasting the outcome of chemical interactions with biological systems. The science of toxicology is utilizing a wide range of scientific advances in the development of tools to assist in the accurate identification and prediction of the effects of chemicals on humans. In support of this critical role, the Pacific Northwest Regional Chapter of the Society of Toxicology will convene at the 2014 Annual PANWAT meeting and share recent advances in predictive toxicology. Please join us on September 18 and 19, 2014.

Location:

Seattle Genetics, Inc. (Building 3), 21717 30th Dr. SE, Bothell, WA 98021

Preliminary Schedule:

Thursday Evening: Registration and Speed Mentoring Workshop (7-9 pm) – at hotel TBD

Friday: Speaker Presentations, Poster Session, PANWAT Achievement Award Winners & Social Reception (8:00am– 6:30pm) – at Seattle Genetics
