The Arab Toxicologists Association
Special Interest Group

The Golden Period of the Arab Sciences

What is the Arab Toxicologists Association?

The Arab Toxicologists Association (ATA) is founded by professionals of Arab origin with expertise in various areas of toxicology working in Arab countries and all over the world. ATA was established in 2019 as a society of Toxicology Special Interest Group. ATA brings together experts from industry, academia, and government to discuss emerging and existing issues and methods for characterizing chemical exposure to help provide insights into toxicological needs in the Arab world and create organizations of toxicology in Arabic countries. ATA will also provide webinars and lectures to increase the awareness and related toxicology research in Arabic communities inside and outside of US.

The Mission of Arab Toxicologists Association

- To establish a Special Interest Group of Toxicologists from the Arab World with a major goal to effectively communicate toxicological issues and support its members to succeed and achieve excellence in toxicology in the US and worldwide.
- To address current toxicological issues that affect Arab nations, and increase awareness of the involvement of toxic substances in causing diseases.
- To promote the development of marginalized branches of toxicology in Arabic nations.
- To serve as an educational guide for Arabic studies in toxicological science.
- To promote the establishment of Regional Toxicology Societies and of Pan Arab Toxicologist Association to be an umbrella for all Toxicology Associations in all Arab Countries.
