## V. Feedback and Ideas:

- A. In what ways is your group fostering and maintaining an inclusive environment?**  
*Regarding the Diversity and Inclusion, the FS3 EC committee is very diverse, represented by women and men from different backgrounds (e.g., academia, industry, consulting). We make sure that everyone's voice is heard on the monthly meeting calls and have diversity in our thoughts and actions in everything we do at FS3. Similarly, FS3 membership is also very diverse from different backgrounds and we as FS3 EC are fully committed to D&I activities and initiatives put forth by SOT and by our membership.*
- B. How might SOT better support your group's activities (perhaps something the Society should be doing that we currently do not do, or do not do effectively, that would be of importance/benefit to the members of your component group?):**  
**Note: If funding is listed, please provide detail on the membership need that the funding would support.**  
*Request for SOT to provide better support for getting the awards (monetary) on time to the award winners. FS3 had a few instances in the past where award monies were delayed due to ongoing COVID issues or for other reasons.*
- C. What is one thing that the Society is currently doing that impacts your component group that should be changed (e.g., stopped, modified, etc.)?**  
*The way SOT distributes award monies for FS3 early career trainees is very inefficient/bureaucratic and leads to frustration by the recipients. FS3 suggests that SOT streamlines the process so that plaques and monetary checks are distributed at the same time.*
- D. What changes do your component group anticipate making in the way in which it operates in the coming year?**  
*FS3 EC is looking forward to an in-person Annual Meeting next year. FS3 EC is making plans for the next year on-site meetings and related activities. We are planning on sponsoring relevant on-site symposia, workshops related to food safety, and a more interactive in-person FS3 reception at the SOT Annual Meeting in 2022.*
