“Winning the 2024 tablet raffle from MB Research Laboratories at the Dermatology SS reception was unforgettable. This generous gift has greatly enhanced my research, making it more convenient to work while traveling or attending conferences. I sincerely appreciate the Dermatology SS for their thoughtful support.”-Ebenezar Okoyeocha

The Dermal Toxicology Specialty Section (DTSS)

The DTSS serves to promote knowledge in the field of dermal toxicology with specific focus on developing clinically relevant models to study **mechanisms and risk assessment for cutaneous exposure to protect against toxicants.**

Our **109 members** within our Specialty Section conduct research in many diverse areas including **dermal toxicology and pharmacology, risk assessment pharmacokinetics, dermal penetration and absorption, oncology, hypersensitivity, regulatory toxicology and product safety.**

Special Program to Recruit Graduate Student Members

The DTSS is offering a membership program for 1-2 graduate students for free membership to the DTSS specialty section. If you have a lab colleague who might be interested in becoming a DTSS graduate student member, encourage them to contact [Azita Cuevas](#) for more information.

Please visit our website for more information about the DTSS by scanning this QR code with your camera phone and following the link!
