Past President's Message

IMMUNOTOXICOLOGY
SPECIALTY SECTION

Dear ITSS Community,

I hope this message finds you well and enjoying a joyful holiday season with family and friends. As we wrap up the year and look ahead, I am excited to share some important updates and plans for our Immunotoxicology Specialty Section.

First and foremost, we are looking forward to the 2026 SOT Annual Meeting in San Diego! I personally can't wait to see you all in Southern California. I missed the meeting in Orlando, and I need to catch up with many great scientists. We hope to see strong representation from our community.

As a second item in my personal agenda, there are only a few days left to submit nominations for ITSS

President's Message continued:

awards, so please take this opportunity to recognize the exceptional work of your colleagues, trainees, and mentors. These awards are an important way to celebrate excellence in immunotoxicology, and your participation ensures that we continue to highlight the incredible talent within our section. To the same end, if you would like to be more engaged within the ITSS community, we are also taking self nominations for Postdoc Representative, Treasurer, Councilor, and Vice President-Elect positions. You just need to send me/us a bio, written in third person, describing experiences that make you an ideal candidate for the position. The ITSS website has more info on each position.

Although we are just starting to prepare for San Diego, I would like to call your attention to the 2027 meeting. If you have ideas for symposia or sessions you would like to see featured, now is the time to begin planning. Our Program Committee is here to support you, and early discussions will help us maintain the strong presence of immunotoxicology at future meetings.

I also want to provide a brief update on our finances. Our account balance is limited this year, but please rest assured that we will not reduce award funds—supporting trainees and recognizing excellence remains our top priority. SOT has made some changes to the meeting schedule, and there will be no Thursday morning sessions. Our ITSS reception will take place on Wednesday night, and we have opted for two changes: we will participate in a joint networking event with CAMAN (details are provided in this newsletter), and we will not provide food at the reception. Despite these adjustments, we hope you will join us to celebrate our awardees and connect with colleagues. Your presence makes these events meaningful and strengthens our community.

Thank you for your continued support and engagement. Please encourage your peers, students, and postdocs to renew their membership and get involved in ITSS activities. Together, we can ensure another successful year for our specialty section.

Wishing you a wonderful holiday season and a happy New Year. We look forward to seeing you in San Diego!

Best regards,

Dr. Alessandro Venosa
Past President, ITSS 2025-2026

ALESSANDRO VENOSA
Past President

Save the Date!

SOT membership is required.

Must be willing to become a member of the ITSS and to commit to service.

ITSS Member Achievements

Want to highlight your *amazing*  accomplishments?

We encourage **ALL ITSS members** to share their achievements over this past year to be published in the upcoming ITSS Newsletters.

You can share your achievements in a Google spreadsheet [here](#).

This includes grants, collaborations, awards, and publications!

ITSS is now on LinkedIn!

We are excited to announce that ITSS now has an official LinkedIn page!

The page was created with the goal of:

- sharing updates from our Specialty Section,
- promoting research and initiatives from our members,
- highlighting information on awards, events, and professional opportunities,
- strengthening the visibility of the immunotoxicology community.

Follow us on LinkedIn:
Immunotoxicologist Specialty Section – SOT
([Click here to join!](#))

We encourage all members to:

- **follow the page,**
- **engage** with our posts (likes, comments, shares),
- **tag ITSS** in relevant professional activities,
- **send us content** they would like to share (awards, publications, events, conference photos, etc.).

Your participation is essential to help increase the visibility of our group and to highlight the contributions of the ITSS community!
