

Exploring Careers in Toxicology Roundtable

This is your opportunity to talk informally with SOT members who are employed in different areas of toxicology, learn what their career paths were like, and explore how these toxicologists manage work-life balance. Your group will meet with three toxicologists—one from academia, one from government, and one from industry.

These toxicologists will tell you what working in their employment sector is like from their perspective. You can discuss the advantages and less positive differences for employees in this area versus other areas. Please ask any questions you might have about what life is like in their positions. You will gain insights into where you might find your best balance and use your interests and aptitudes pursuing a career in toxicology.

What would you like to know about life as a toxicologist?

Be sure to ask your questions.

Toxicologists Meeting with Your Group

Team 1

Academia

Merrie Mosedale, PhD

University of North Carolina Chapel Hill
Institute for Drug Safety Sciences
6 Davis Drive
Research Triangle Park, NC 27709
919.226.3143
merriem@email.unc.edu

Government

Frederic J. Moulin, PhD, DVM

US FDA
Division of Bone Reproductive and Urologic Products
8809 Jones Mill Road
Chevy Chase, MD 20815
