Council and CRAD Collaborating on Mentorship in 2017–2018

By: Patricia E. Ganey, PhD

Dr. Ganey highlights the Society's commitment to and the importance of mentoring and provides updates on SOT's partnerships with the Japanese Society of Toxicology (JOT) and the International Union of Toxicology (IUTOX).

Discussion Feature

The Role of Societies in Increasing Collaboration across Disciplines—Communicating in Toxicology (Part 2 of 2)

By: David Faulkner, MPH

Cross-disciplinary collaborations are increasingly vital in science. This article explores how SOT is addressing the opportunities and challenges of getting toxicology a seat at the table.

Discussion Feature

Predatory Journals: How to Spot and Avoid Them

By: Mary Beth Genter, PhD, DABT, ATS; and Rosonald R. Bell, MSc, PhD, DABT

With an increasing number of poor-quality scientific journals appearing in the marketplace, the authors provide context on the rise of predatory journals and offer guidance on how to avoid their traps.
Informational Interviews: What Are They and Why Should I Be Conducting Them?

By: Brita Kilburg-Basnyat, BS, PhD

Informational interviews can be invaluable in helping decide future career directions, but many people are unfamiliar with them. This Q&A provides insight into how to approach and conduct them.
